

CEDIA-ICA Conference 2017

4/5 May 2017, Vienna, Austria

Defining Agronomists Professional Profiles and Agricultural and Life Science Study Programmes

Agronomists

This term covers professional profiles such as agricultural scientist, agricultural engineer, agricultural economist, food scientist, food engineer and others based on academic education with university degrees relating to the European Qualifications Framework (EQF) in the above fields.

Focus

We will discuss how current agronomists professional profiles and agricultural and life science study programmes relate. How professional associations, alumni organizations and life science universities can support each other, so that they can deliver the professionals and leaders in the transformation of the bio-economy - agriculture, and the food and non-food sectors - according to sustainable development principals.

Expected Outcomes

1. **Examples** of agronomists professional profiles and agricultural and other life science study programmes, discussed on the basis of the "Agronomist Universal Charter 2015"
2. **Agenda for cooperation** between life science universities, alumni organizations and professional associations to strengthen the education and training of agronomists
3. **Proposals** for the next steps.

Sessions

1. Agronomists for the bio-economy - agriculture, and the food and non food sectors - and the rural and urban development of the 21st century: challenging today's professional profiles on the basis of the "Agronomist Universal Charter 2015".
2. Preparing agronomists for a more sustainable world food system at the local and global level: a critical view on study programmes in order to gain the qualifications needed.
3. Contributions of the professional associations / alumni organizations supporting the education role of universities in the bio-economy; identifying joint actions.

| 11:30 | Roundtable discussions and report back |
| 12:30 | End of Session 1, Lunch |

Programme, May 4

Session 2

Preparing agronomists for a more sustainable world food system at the local and global level: a critical view on study programmes in order to gain the qualifications needed.

Moderator **Alex EVANS**, Vice President of ICA
Dean of Agriculture, & Head of the School of Agriculture and Food Science, University College Dublin, Ireland

13:30

Barbara HINTERSTOISSER, Vice Rector for Education and International Affairs, University of Natural Resources and Life Sciences (BOKU), Vienna, Austria

The Three Pillars Study Programmes at BOKU for the Sustainable Bioeconomy

14:00

Achim WALTER, Professor at the Institute of Agricultural Sciences at the ETH Zurich, Switzerland

AGROfutur: Reforming the study programmes of agricultural sciences at ETH Zurich also based on employers' needs

14:30

Rainer LANGOSCH, Dean of Agricultural Economics and Food Sciences at the Neubrandenburg University of Applied Sciences Neubrandenburg, Germany

Knowledge and Skills required - To do's in the academic education of professionals for agriculture and agribusiness.

15:00

Maria VARGAS, Deputy Director of the School of Agricultural Engineering and Environment (ETSIAMN)
Valencia, Spain

The adaptation and certification of the educational programs of Agricultural Engineering in the Spanish Universities

15:30

Niklaus HRUSCHKA, Young Professionals for Agricultural Development (YPARD), European Chapter

Reflection on experiences of a university graduate in first employment

15:45

Coffee break

16:00

Roundtable discussions and report back

17:30

End of Session 2

18:30

Bus transport for Dinner at "Der Wiener Heurige Wolff"

Programme May 5

Session 3

Contributions of the professional associations / alumni organizations supporting the education role of universities in the bio-economy; identifying joint actions

Moderator: **Michel ROUX**, Vice President of CEDIA

09:00

Roundtable discussions to identify inputs for Session 3 by reflecting the results of Session 1 and 2

09:30

Mary DELANEY, President of the Agricultural Science Association (ASA), Ireland

How ASA supports its members, students and young professionals in collaboration with Irish universities

09:50

José María MARTÍNEZ VELA, Manager of the Consejo General de Colegios Oficiales de Ingenieros Agrónomos (CGCOIA), Spain

Proposal for regulating the profession of agronomist taking into account the free movement of professionals in Europe

10:10

Rolf SCHWERDTFEGGER, Board member of the Berufsverband Agrar, Ernährung, Umwelt e.V. (VDL), Germany:

Proposal to gain more influence by organizing forums on education and innovation with stakeholders from university, economy, politics and civil society

10:30

Coffee break

11:00

Roundtable discussions to identify opportunities for concrete actions and report back to the group

12:30

Alex EVANS, Vice-President ICA

Sean GAULE, President of CEDIA

Closing words, next steps

12:45

End of Conference, Lunch

Hotels

Rooms are reserved until March 23, 2017 at a special rate.

Participants are asked to book by e-mail to one of the two hotels with the note “CEDIA-ICA Conference 4/5 May 2017” and the number of the credit card.
Payment at the hotel.
